

# The Steam Exchange Brewery Winter Newsletter 2006

The chilly winter season is upon us...

## Head Brewer arrives...

We welcomed Simon, Rowena and Gretta to Goolwa in early May. Simon Fennell, as Head Brewer and has been integral in equipment design, construction, and repairs in preparation for brewing. While the building process has been long and arduous there does seem to be light at the end of the construction tunnel!

## Brewery progressions

The purchase and overhaul of a railway car from Mount Gambier has provided a unique stage for the cold conditioning tanks and the cold room. Its arrival and completion allowed the tanks to be put in place, and calibrated for excise. Now the brewing can begin....

## A hearty stout brewed..

Brewing has commenced! Through the all the steam, the first brew day saw the successful beginnings of a hearty stout – perfect to enjoy throughout a chilly South Australian winter. Over the last few weeks, four styles of beer were brewed. These are now conditioning in tanks, waiting to be bottled and kegged, in preparation for opening.

....hopefully our beery good news has warmed you!

*Cheers and beers from all of us at the Steam Exchange*
